Notable features:

A long terrace of large houses built between 1869 and 1876. Many are vacant (1131, 1129, 1127, 1119) and the others are grossly rundown due to the highway development, years of heavy one-way traffic on Mulberry Street, which has relatively narrow sidewalks, and, no doubt, other causes. When Mulberry Street becomes a service road, these could be rehabilitated.

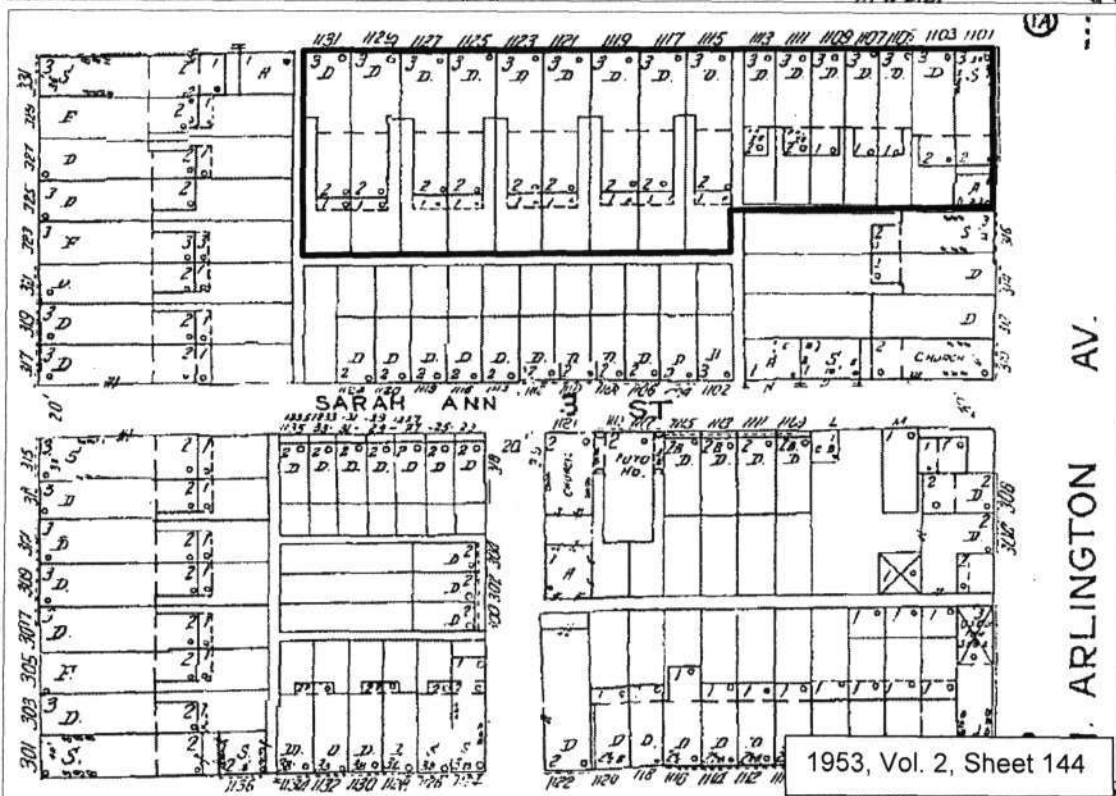

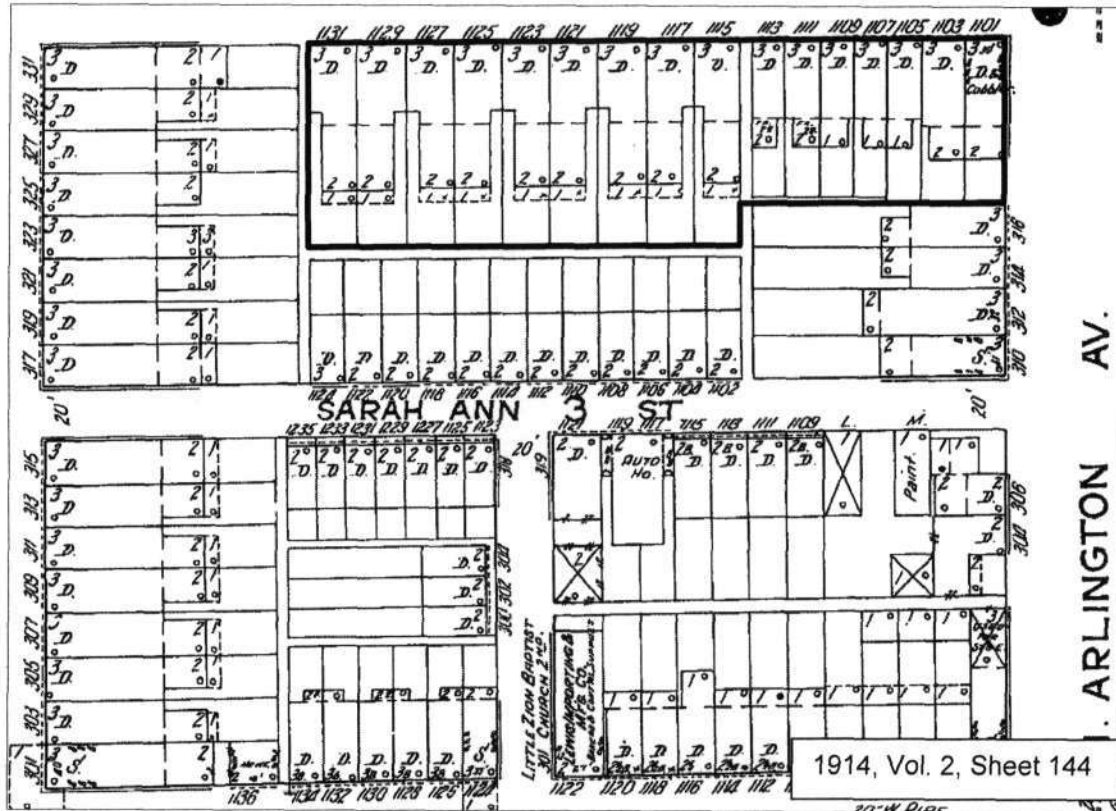

Environmental context:

The row faces the Franklin-Mulberry corridor and expressway. It needs redesign. If a strip were heavily planted between Mulberry and the expressway, this would assist the retention of these houses.
